

Missing school isn't the end of the world*

*actually, it might prevent it

**“To be, or
not to be?”**

– Everyone alive right now

We need to talk about the birds and the bees*

*and the fact there aren't
going to be any

**I think,
therefore I go
to the climate
strikes**

Human history repeats itself*

*as long as there are humans

$x = \text{extinction}$

**We don't need
no ~~education~~***

***gas or coal-fired power stations**
